ISO APPROVED CATALOGUE AVAILABLE NOW

New 2011-2012 Catalogue launched for ISO approved KRU LIFEJACKETS.

Kru is currently one of the few manufacturers with a full range of ISO approved lifejackets and have now released their 2011-2012 catalogue. Whether your requirement is for occasional day sailing or superyacht, deep sea yachting, Kru can provide the full range of ISO approved lifejackets for adults, professionals and children.

The range features the Kru XS, which provides 171N(actual) buoyancy, the Kru Professional complete with integral sprayhood, Kru Sport Pro, designed for all weather conditions and water use giving 180N(actual) buoyancy and Kru's Child & Junior Jacket for children between 15-40kg. The new catalogue is packed with technical detail to allow you to choose the right jacket for your needs, plus all the accessories and spares that you may require.

The range includes jackets for commercial applications such as the Kru Falcon, featuring twin chambers offering additional safety for workers at sea and in hazardous conditions. These jackets still provide a high degree of comfort and durability. Even more specialised is the Falcon - "Welders/Firefighters". Designed in conjunction with firemen, it will right an unconscious person who is wearing full kit with Breathing Apparatus, providing 275N(rated) to 350N(actual) buoyancy.

Kru recognise the very serious nature of lifesaving at sea and is the only organisation to have developed such a comprehensive range of ISO approved lifejackets. Kru lifejackets are available from all leading chandlers. Go to krulifejackets.com today and request your free catalogue. (Also available in digital)
