

## KAYOSPRUCE LAUNCH NEW 2010/2011 CATALOGUES

Kayospruce has just completed two brand new catalogues, which are now available – 130 pages of marine and technical product and a Sunbrella Collection interior and exterior fabrics supplementary catalogue.

The 130 page complete catalogue features all the latest product ranges, and is available either in print or digital format. Clear images are accompanied by detailed tables to provide exact dimensions and specifications in the hardware ranges and colour and pattern swatches can be seen of the extensive Sunbrella interior and exterior fabrics. The pages also detail the specific properties of the fabrics, such as water repellence, mildew and weather resistance, as well as flame or fire retardance.

If the hardware requires special tools, such as grommets or canopy fasteners, then the specific size and product code for the tool, is quoted next to the fastener, making the selection easy to navigate.

“This is a major step forward for us,” said Managing Director Ian Dawson. “We now have all our products in one high quality, colour catalogue, broken down into straight forwards sections. Already the response has been fantastic. This new catalogue incorporates all our recently launched pioneering products such as, Airmat AG+, Zlide On zip repair fasteners, specialist marine carpet and the very latest 2010 Sunbrella fabric range.”

Both catalogues are available from Kayospruce by telephoning +44 (0) 1489 581696.

Issued 30 September 2009
