

NEW SAILBAG RANGE LAUNCH AT METS 2011

Kayospruce have produced a range of sailbags, built using quality polyester materials, heavy duty zips and strong stainless steel fittings. Key products are the Spinnaker launch bag, the Genoa Zip bag and the Spinnaker Snuffer. This range is being launched at METS 2011.

Kayospruce set out to design bags that would be easier to use and more efficient for racing and cruising. These bags offer a higher quality level. They feature strengthened corners and extra securing straps, avoiding losing sailbags overboard and splitting/ripping problems that yachtsmen regularly encounter with existing bags.

Other practical features include burst zips, ties, carry handles, and mesh bases for water drainage. Long tie lines with snap hooks enable spinnaker bags to be loaded on the windward side prior to the launch.

SPINNAKER BAG FEATURES

- Strong 600 denier woven polyester cloth for durability
- Velcro flaps and ties to ensure security when packed
- Unique elasticated strop for windward launches
- Mesh Bottom to aid draining
- Stainless snap hooks for securing on guard wires
- Carry handles
- Strengthened corners and wide opening to aid launching
- Dacron patch for sail referencing and numbering.
- Available in 7 sizes
- Available in colours: Blue and Grey

SPINNAKER SNUFFER FEATURES

- Strong Glassfibre moulded Snuffer unit
- Two sizes of Snuffer
- Wide Beak for easy dousing
- Lightweight polyester sock
- Highload shackle for halyard attachment.
- Reinforced head webbing
- Rope and block lines for hoisting and recovery
- Snuffer sock available by the metre, from 10 m up to 24 m
