

KAYOSPRUCE DISTRIBUTES NEW FERRARI STAMOID MARINE FABRICS

Kayospruce has just added the Ferrari Stamoid Marine Fabric range to their UK distributorships.

This extremely high quality marine cloth is manufactured by Ferrari in Switzerland and owes its worldwide reputation to a specific coating formula that provides a unique set of benefits and high performance in the marine environment. These features include longevity, UV and mildew resistance, waterproofing, extreme flexibility and therefore ease of stowage when not in use

Throughout the Stamoid Range, there is a 5 year limited warranty and the fabrics comply with the European Oko Tex standard. This requires no harmful chemicals or processes and stipulates that the fabrics are fully recyclable through the Taxyloop process. It is also available in wide rolls.

The high quality of the Ferrari fabric is recognised worldwide by both professionals in the industry and recreational yachtsmen for a variety of applications. Different fabric weights allow for light or heavy covers, dodgers and biminis. Ferrari Stamoid is easy to clean and will provide protection against UV and wind, at the same time remaining waterproof.

Technical specification:

- 5 year limited warranty**
- High resistance anti-UV treatment**
- Unique anti-mildew treatment**
- No distortion under tension**
- High breaking strength**
- Taxyloop recyclable**
- Easy to clean**
