## IAN WILLIAMS TO JOIN THE LYNX CORPORATE SB3 MATCH RACE FLEET

Team Pindar's World Match Racing Champion, Ian Williams, has agreed to be an associate to the already established Lymington - Solent based fleet of charter Laser SB3s. He will bring his race winning experience to Lynx Sport Management, to deliver top quality match racing for those interested in chartering in this particular competitive field of yacht racing.

The fleet is currently based in Lymington on the South Coast of England, but can easily be moved to other venues in the UK and Europe to provide this exciting type of racing to wider audiences. The one design boat is sailed by up to 4 crew, providing the closest possible racing. The Lynx fleet is ideal for corporate match racing anywhere in the Solent area.

Stuart McKean, Director of Lynx Sport Management said, ***"We are absolutely delighted to have Ian on board to advise and profile the match racing side of our corporate charter fleet of Laser SB3s. Anyone who is fortunate enough to gain experience from his vast knowledge of close competition sailing will be able to use this in a much wider arena of sport and in business. The precision detail gained from top match racing helmsmen like Ian is second to none."***

To review SB3 sailing opportunities, please call
