## PRESS RELEASE

LOOKING FOR SUN FOR NEXT  
YEAR'S CRUISING?

**BOOK YOUR ANNUAL BERTH AT MARINA PREKO IN CROATIA NOW  
so you can plan your Summer cruising itinerary from a charming  
local Croatian marina with modern facilities.**

Are you fed up with the dreary weather we have suffered in Northern Europe this Summer? Then book your berth now to find some sunshine and good weather for next year's weekend breaks and sailing holidays. Situated on the Isle of Ugljan, in the middle of the Dalmatian coastline, Marina Preko provides the ideal location to base your boat, for some exquisite day sailing and cruising further afield, which cannot be found anywhere else in the world.

With Summer temperatures providing a Mediterranean climate from April to November, the season is lengthened. Local facilities provide fresh supplies from a market or nearby shops and unspoilt beaches and local services give access to angling, diving or mountain biking. The marina itself has all the modern facilities expected, such as laundry facilities and shower block, wifi and 24 hour cctv security.

2009 prices for berthing in Marina Preko, whether for an annual, monthly or daily berth are extremely competitive and flights are available into Zadar or Zagreb from most European countries. Annual berths are currently available for 2009 for all sizes of boat from 25' in length upwards.

To find out more about the beautiful crystal blue cruising waters and the breathtaking scenery around Marina Preko, and to learn more about the area and local traditions on the Island of Ugljan, please visit: [www.marinapreko.com](http://www.marinapreko.com)
