

### Latest in the range of marine bicycles from Seasure is the Sea + Shore FB2 folding bike.

With a rock solid frame and top quality components, this new bike is designed for short trips around the marina and ideal for cycling to and from the beach with its town and country tyres. It comes with a high specification of accessories such as front and rear mudguards, rear pannier rack, a double chain guard and kick stand.

At just 14 kilos in weight, the Sea + Shore FB2 folds to an incredibly small size, which is easy to stow in most cockpit lockers. It will carry most of the crew from a rider height of 4' 6" up to 6' 2" in comfort, with its 16" aluminium silver anodised wheels. The bike features a 6 speed gear with revoshift 'twist-shifter' and alloy V brakes.

This bike is the latest into the range of specialist marine bicycles from Seasure, which are ideally suited to the marine environment.
