

NEW LIGHTWEIGHT FOLDAWAY BIKE FROM SEASURE

Seasure have just introduced a new lightweight folding bike to their range. Ideally suited to the marine environment, the Folder 1.0 Sea Sure bike is made entirely of aluminium and therefore has excellent corrosion resistance in a damp and salty atmosphere.

The Folder 1.0 bike can be ridden by anyone between 4' 6" and 6' 2" in height, so can be used by any of the family. It stores into a compact folded size of 33 x 62 x 70cm, which can be easily stowed into a small locker and features a Sturmey Archer 3-speed hub with 'twist-shifter' gears. Wheels are 16" aluminium with stainless spokes, with folding pedals, mudguards and rack.

Price for the Folder 1.0 Aluminium Folding Bike from Seasure is £289.99 including the stowage carry bag.

Technical Specification:

Weight: 12.4 kilos

Frame: 7005 Aluminium Custom-Drawn Tubing with a Dahon Patented Hinge Mechanism
