

SKY-ELITE - THE NEW EUROPEAN BUSINESS DELIVERY SOLUTION

Based from Bournemouth Airport, Sky Elite provide a business transport solution throughout Europe. Successful businesses need overseas meetings, and moving staff through Heathrow or Gatwick can be expensive – transfers, flights, staff time and hotels all add up, though they are nothing compared to the risk of losing a big contract because you're tired and stressed.

Sky Elite can get you to your meeting and back in the same day, departing and returning at the time that suits you, in the safest general aviation aircraft ever built, fully prepared for your business needs. Want to rest in preparation for the big presentation? Lie back in the fully reclining executive seats. Need to discuss strategy? All seats can be faced inwards so everybody can be involved. Last minute powerpoint additions? Use the power sockets and presentation screen.

Pioneers in dry leasing contracts, Sky Elite offer aircraft leased by the hour, available wherever and whenever you need them. You can also use your own pilot (or one approved by the insurance company). The aim is to reduce the cost of personalised air transportation for businesses by using our own state of the art aircraft and technology.

More ...

The aircraft of choice is the remarkable Pilatus PC-12, fast, safe and comfortable; one of the best aircraft for your business trips. This turbo prop, high-speed craft offers eight passenger seats (six executive, two standard seats) and a massive cargo door. It also has a remarkable range, meaning transport to most European destinations takes just a few hours. See: <http://www.sky-elite.eu/how-far.html>

An additional benefit of the Pilatus PC – 12 is its short field, and grass field capability (ability to safely use short runways), this allows us to land you at the closest possible airport to your business destination, saving you precious time for meetings.

“ I took my team of five to France for an important contract meeting. We landed locally so no drive to London, no car hire, no overnight costs and five man days instead of ten!”

For regular business users, Sky Elite can offer pre-tailored or bespoke packages - an unbeatable combination of value for money, first class service and flexibility. If you want the benefits of private business flying without the hassle of owning and managing your own plane, Sky Elite could be the answer to your European Business Travel requirements.
