

# Strawberry Yacht Management Limited

An excellent opportunity has arisen to acquire a large selection of quality, used superyacht equipment at a fraction of the retail value. All equipment has been extremely well maintained, is in good working order and would be suitable for yachts around 40 metres (140 ft) in length. Equipment includes engineering items, including complete engine and gearbox, Garmin Radar, Iridium Sat Phone System, Furuno Navigator System and other electronics, numerous sails, deck hardware, winches, 53 metre (175 ft) aluminium mast, complete deck windlass with motor, and more.

Two Lewmar 122 winches have also become surplus to requirements from a 40 metre (140 ft) superyacht project and would be ideal for any new or rebuild project of similar size.

These 3 speed primary Genoa winches have been rebuilt to new condition. All gears and moving parts have been renovated, renewed or replaced; drums have been skimmed and polished and the winches come with a full warranty. We understand that the new cost for 122 winches is in the region of £30,000 each but all sensible offers will be entertained. More items are always becoming available so keep an eye on our site.

The equipment is offered at attractive prices for dispersal and sensible offers will be entertained. Please contact us for the full technical specification, or to make offers.
