

Solent Shallows

Strawberry Marketing has launched an innovative online service, Solent Shallows, which offers yachtsmen detailed photographs of the many hazards around The Solent and The Isle of Wight.

This large collection of aerial shots, taken at spring low tide and labelled to show precise locations, can assist in your avoidance of the area's many hazards.

Solent Shallows offers a great visual reference to existing charts, photographs can be selected by area and by hazard name, allowing the user to highlight possible dangers on their marine chart and then immediately bring up an image of the risk they are likely to face. This allows for a better understanding of the hazards themselves.

Regularly updated to keep abreast of sandbank development, this service is essential for anybody competing in the Round the Island Yacht Race or Cowes Week. Offering unrivalled knowledge of the course, Solent Shallows allows you to negotiate the Solent more precisely, using photographic markers to understand hazards, and allowing you to take full advantage of the fastest course.

A CD of high-resolution images is also available online at a cost of £7.50 including VAT and UK Postage.
